

## **Linda Whichard Miller**

Linda Whichard Miller obtained her NC optician's license in 1996 by way of the Board's apprenticeship program. She also has a Business degree from East Carolina University, and holds a Fashion and Image Consultant certification through Positive Perception. She resides in 'the original' Washington NC with her husband, and thoroughly enjoys time with her family.

Linda has worked in the optical industry since 1990. Previously she was Prime Vision's National Education and Training Director, and has served as a trainer for the Board's training curriculum and processes. She (somewhat) retired from full-time work in 2013, but continues to do fill-in dispensing work and provide optical management services.

Ms. Miller understands the importance of solid training for opticians, and the need to uphold law while providing the public with only excellent eye care. In 2014 she was appointed to complete an unexpired term, and gained her first full-term appointment in 2015. She occupies a seat set with a 2018 expiration date.
